

Classification Hearing & Tax Commitment

Following some discussion and a few presentations relative to single versus split tax rates, the Council approved a single tax rate at \$14.84 per \$1,000 of taxable value as calculated by the Board for all property classes. The tax commitment and mailing were timely for an actual 3rd quarter tax bill.

Abatement Reviews

Upon mailing of the tax bills and on or before the due date of the first actual bill, property owners have an opportunity to file an Abatement Application on the basis of overvaluation or misclassification. 68 abatements applications were filed of 11,492 taxable accounts, or 6/10ths of 1%. Generally those with merit were resolved through our conducting a complete on-site exterior measuring and interior inspection. Usually a valuation discrepancy is the result of a data error or as a result of an inspection appointment not being arranged and thus the data having been "estimated".

Technology Improvements

In addition to our state-of-the-art software for the valuation and administration of both real and personal property, Cartographic Associates, Inc. (CAI) of Littleton, NH has continued to maintain the digital/GIS-mapping program it first developed for us in FY 2005. Following aerial photography and planimetric (physical features) mapping, CAI constructed cadastral tax maps (depicting parcels) through the use of over 5,000 plans and over 15,000 deeds. These new maps are continuously in our process of reconciliation with our property records for consistency in both parcel inventory and land area. With the support of Town Administrator Jeff Nutting and the Town Council, we have capacity in our Patriot software to link and utilize the maps with our assessment file. In addition, for the past ten years we have provided our tax maps on the web for the benefit of both the Town staff and the general public.

Appraisal & Administrative Staffing

The use of automation has minimized the former heavy burden of traditional data processing. Due to this and numerous other office improvements, the Town approved our Staff Restructuring Plan. We have adjusted our administrative support staff to Board Secretary Anne Covell who is responsible for continuing to improve our service to the public at the counter and by phone. She focuses her efforts on providing and reviewing public records, Motor Vehicle Excise Tax Commitments and Abatements, Exemption Applications, the general and specific support to the Appraisal Staff and any other assignments as required. She continues to train in various administrative duties and computer applications. We thank Anne for her efforts in 35 years of service to the Board. The Appraisers have made special efforts in the development and implementation of usable written instructions for the assessing office procedures and for MUNIS financial software applications. These instructions were developed consistent with all Mass. General Law and DOR requirements.

Appraisers

We thank Kevin W. Doyle, Director of Assessing for his diligence especially as Director beginning following his first two years here. He has overseen the completion of all our work these past fourteen fiscal years, five full revaluations and nine interim years of market adjustments. We are also pleased with the support work of Appraiser Peter Mooney since August 2004 and of Appraiser David Ruberti since July 2005. Our Director received his Massachusetts Accredited Assessor (MAA) in 1990. Within the past eight years both Appraisers completed their designation required education and experience, being granted their MAA designations and maintaining the periodic recertification required.

Town Revenue Enhancements

In addition to meeting all state requirements as well as daily office oversight, the Director and Appraisers have achieved many additional improvements to benefit the Town taxpayers. One such is the efficiencies built into the Motor Vehicle Excise Tax Commitment and Abatement processes in conjunction with the new MUNIS tax software installation. These excise taxes represent about 4.5 million dollars in locally raised annual revenue, or about 6.5% of locally raised tax revenue. We assure the citizens that like real and personal property, taxes on these are assessed and abated appropriately and uniformly for the maximum benefit of all. Registry of Motor Vehicles' automation aided the Director and Appraisers to further enhance revenue in assessing dealer and repair plate registrations. As well, with the automation improvements of the Environmental Police, this professional staff successfully developed a new annual revenue stream in the identification and assessment of excise taxes on boats principally situated in the Town of Franklin.

On-site Periodic Property Reviews

Because we have initiated the cyclical property re-measurement and re-inspection program acceptable to the Massachusetts DOR, we continue to make various public information efforts to assure property owners have advance information about this on-going program. Briefly, please note that the purpose of these property visits is to verify that the correct data is being used in the determination of valuations to achieve "full and fair cash value" in accordance with Mass. General Law Chapter 59. The Board appreciates the general public's cooperation in its efforts to serve all property owners in all property types to assure fair and uniform values.

Your Elected Board of Assessors

Before entering the performance of his/her duties, each Assessor upon election has taken the oath of office specific to assessors. Massachusetts General Law has provided that because the DOR Commissioner of Revenue has regulatory oversight of assessing in every city and town, the Commissioner likewise determines the training requirements for the assessors and any assistants. At this time, the Commissioner has determined Course 101, including the Classification Training Workshop, meets the

minimum requirements. All three assessors have completed these and have been certified as such by the Commissioner of Revenue.

The Board looks forward to continuing education opportunities offered by the MA DOR and the professional associations, the Massachusetts Association of Assessing Officers (MAAO) and the International Association of Assessing Officers (IAAO). The assessors have attended seminars and workshops to broaden and reinforce their understanding of property tax law.

In particular, the Board has focused on current and possible future tax relief and deferral options for Franklin's elder citizens. To that goal following meetings of the Town Senior Outreach Committee, last fall the Board, its Staff and the Office of the Council on Aging continued a broad-based effort to reach seniors. This resulted in successfully providing tax relief (exemption) information to additional seniors who owned and occupied their homes.

Also, with the valued assistance of Veterans Agent Bob Fahey, special efforts were made to identify veterans and their surviving spouses entitled to state exemptions, much of it reimbursable to the Town. At the close of FY 2015, Bob retired as Veterans' Agent; his dedication to veterans and his assistance to our Board and Staff in these matters is remembered and always appreciated.

All these efforts are consistent with the Board of Assessors commitment to meet its challenges as key Town Financial Team members to the benefit of all the citizens of the Town of Franklin.

The Board thanks John Neas for his service as a member. Regretfully, John resigned as a result of the demands on him as a new full-time assessing director for the Town of Hopkinton. The Board was fortunate to receive the interest of Franklin resident Town of Medway full-time assessing director Donna Greenwood who was appointed by the Town Council as an interim member until the Fall 2015 election.

As we write, the Board of Assessors and its Staff are preparing to finalize the Real and Personal Property Appraisal files for Interim Fiscal Year 2016 subject to DOR review and Final Certification.

Respectfully submitted,

W. Ken Norman, Chairman
Christopher K. Feeley, Assessor
Donna Greenwood, Assessor

REPORT OF THE TREASURER-COLLECTOR

Fiscal 2015 has been another very busy year in the Treasurer-Collector's office.

The fiscal year began and ended with very low investment interest rates (MMDT – .20%). On the borrowing side, the low rates had a positive effect. In February of 2015 we refunded bonds from 2006 and 2007 for \$6,920,000. The refinancing will generate total savings of \$603,906 over the remaining life of the Bonds. Janney Montgomery Scott LLC was the winning bidder on the Bonds with an average interest rate of 1.931%.

Prior to the sale, Standard and Poor's Ratings Services, a municipal credit rating agency, affirmed the Town's AA+ bond rating. The rating agency cited the Town's very strong economy, strong management with good financial policies, strong budgetary flexibility, very strong liquidity, very strong debt and contingent liability position and strong institutional framework as positive credit factors.

In May of 2015 we issued a 1 year Bond Anticipation Note (BAN) for \$3,250,000. It included \$3 million for continued FHS construction and \$250,000 for Library planning and design. TD Bank was the winning bidder on the BAN with a weighted average interest cost of .3747%.

During FY 2015, \$152,140 was collected in back property taxes, interest and fees. Fourteen property owners paid off all outstanding taxes and redeemed their properties

out of tax title. We continue to pursue delinquent taxes through the foreclosure process and there are currently 30 properties in Land Court. Since 2001 we have foreclosed on 55 properties. Some properties will eventually be auctioned off and the rest will remain as town property.

There were 899 Municipal Lien Certificates issued by the Treasurer-Collector's office generating revenue of \$44,950. Also collected was \$2,856.00 in fees for duplicate bills and files that we supplied to tax services and escrow agents. During FY15, the Treasurer-Collector's office printed and mailed 43,632 Real Estate Tax bills; 2,140 Personal Property Tax bills; 32,821 Motor Vehicle Excise Tax bills; and 39,359 Utility bills. The following Demands were also printed and mailed; 588 Real Estate Tax, 98 Personal Property Tax, and 4,422 Motor Vehicle Excise Tax. There were 2,013 Motor Vehicle warrants issued in FY15. There were 14 Betterment releases (water, sewer and road) generating revenue of \$56. We also collected \$96,600 for backflow testing and \$63,500 for Sprinkler/Hydrant charges.

The Treasurer also acts as the town's parking clerk. Our deputy collector, Kelley & Ryan Associates of Hopedale, handles the billing and collection of parking tickets. During FY15 we collected \$30,890 for parking violations.

I would like to thank all town departments for the timely and accurate turnover of fees to the Treasurer-Collector's office. I also would like to thank the first-class staff of the Treasurer-Collector's office for their continued hard work. Finally, I thank the citizens of Franklin for their continued support.

Respectfully submitted,

James P. Dacey
Treasurer-Collector

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Franklin, Massachusetts, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

The Town's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that

are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Franklin, Massachusetts, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and Schedule of Funding Progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards Board*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Other Information

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 11, 2015 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Town of Franklin we offer readers this narrative overview and analysis of the financial activities of the Town of Franklin for the fiscal year ended June 30, 2014.

A. OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the basic financial statements. The basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of our finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position is improving or deteriorating.

The Statement of Activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities include general government, public safety, education, public works, health and human services, and culture and recreation. The business-type activities include sewer, water and solid waste activities.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. All of the funds can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide

financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

An annual appropriated budget is adopted for the general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Proprietary funds. Proprietary funds are maintained as follows:

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Specifically, enterprise funds are used to account for sewer, water and solid waste operations.

Proprietary funds provide the same type of information as the business-type activities reported in the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the sewer, water and solid waste operations. The sewer and water funds are considered major funds.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information which is required to be disclosed by accounting principles generally accepted in the United States of America.
