

# FRANKLIN FIRE DEPARTMENT

## RESIDENTIAL KEY BOX PROGRAM

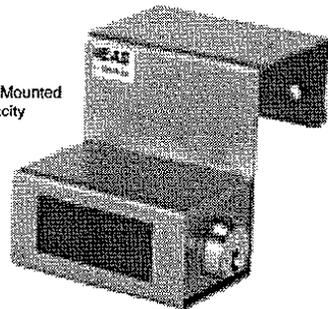

The Franklin Fire Department has partnered with the vendor of their commercial Key Box Program (EAS Emergency Access System) to offer a key box for residential use. This small key box is small, compact and perfect for residential applications. Specifically, the department sees this device used in residential buildings where a person uses "Life Line" emergency communications or has a fire alarm system monitored by a third party central station alarm company. In both applications, the key box will allow firefighters and paramedics quick access into buildings where time critical services may be required.

These units are priced at \$ 119.00 plus \$ 14.00 for shipping and handling – order forms are available at the fire department. Once the key box is installed in an approved location, the department will lock

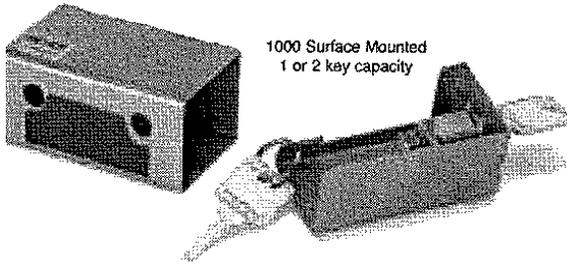

the key into the box. The Franklin Fire Department is the only agency with a key to the key box.

For more information contact the fire department at 508-528-2323
