

# Franklin Building Department: Wood Stove Permit

---

Date: 02/05/97

The following information / plans / documents are needed to process your stove permit application:

- 1) A completed building permit application with all information filled in (including license numbers and photocopies of them, phone numbers, zoning district, assessor numbers and description of work) and two (2) copies of a completed "Wood Stove Installation Checklist" (copy attached).
- 2) Two (2) copies of the Manufacturer's installation instructions, one of which will be stamped and returned to you to be kept on site, this is what the inspector will use to inspect the stove, so keep it handy.
- 3) Copies of installing contractor's licenses and insurance (where applicable).
- 4) If all the proper information is provided, it makes our job easier and your permit can be issued more quickly.
- 5) Inspections for wood stoves are required prior to use.
