PRESENTATION
SPECIAL PERMIT/SITE PLAN MODIFICATION
33 Forge Hill Road

Ms. Love said this is in the industrial zoning district and is a multi-use property. The applicant is looking to take over a partial part of the building to use as a motor vehicle service for other. She said it has been explained that it is strictly for customer car cleaning, so it is not adding any automatic car wash as it will all be done by hand. She said there is an existing grease trap in the building. She explained that the reason they are before the Planning Board is due to the change of use. She said they expect about two to three clients per day. She said there is no auto body and no mechanics. She confirmed it is the fine detailing of the vehicles.

Ms. Wierling confirmed that there will be no automatic bays/components and vehicles will be washed by hand.

Mr. Elia Nassios, applicant (via Zoom), said it is just a hand-wash car wash. He said the hours of operation are 8 AM to 8 PM or 9 PM for when people get out of work, and he has to take away the rain dates. Ms. Love said the industrial zoning district probably works those hours anyway. Ms. Wierling confirmed the garage doors come down and are closed when the car is being detailed. Chair Rondeau said working outside at 9 PM would be lights and noise. He confirmed there is an existing grease trap. Mr.

Maglio said he does not get the reports on when the grease trap was last pumped out. Mr. Stickney added that we stipulate that there is nothing automatic installed.

After a complete presentation and discussion of the project, Planning Board members closed the Public Hearing on April 22, 2024.
