Introduction

This report presents the Governmental Accounting Standards Statements 74 & 75 based on the findings of an actuarial valuation as of July 1, 2021, of the Franklin OPEB Plan. The liabilities were rolled forward from July 1, 2021. The Net Position Restricted for OPEB was not.

The actuarial valuation is based on:

- Plan Provisions as of July 1, 2021.
- Employee data provided by the Town as of July 1, 2021
- Asset provided by the Town as of June 30, 2021
- Actuarial assumptions approved by the Sherman Actuarial Services and the Town

The valuation and forecast do not account for any subsequent changes in the plan.

GASB Statements No. 74 and No. 75

Effective for periods beginning after June 15, 2015, the Governmental Accounting Standards Board (GASB) requires the disclosure of Other Post Employment Benefits (OPEB) related liabilities for public employer financial statements in accordance with Statements 74 and 75. These statements, which amend GASB Statements No. 43 and No. 45, must be adhered to by any public employee retirement system that follows Generally Accepted Accounting Principles (GAAP).

These disclosures are intended to establish a reporting framework that distinguishes between:

- current financial information about plan assets and financial activities,
- actuarially determined information from a long-term perspective,
- the funded status of the plan, and
- progress being made in accumulating sufficient assets to pay benefits when due.

The statement requires the system to present two financial statements – a statement of fiduciary net position and a statement of changes in fiduciary net position. The statement of fiduciary net position presents the following items as of the end of the plan's reporting period, as applicable:

- Assets
- Deferred outflows of resources (consumption of net assets by the employers that is applicable to a future reporting period)
- Liabilities
- Deferred inflows of resources (acquisition of net assets by the employers that is applicable to a future reporting period)
- Fiduciary net position (Assets + Deferred outflows – Liabilities – Deferred inflows)

The system is considered a single employer OPEB plan since obligations exist for employees of one employer and plan assets can be used to pay the benefits of the employees of the employer.

This report does not include all items required under GASB Statements No. 74 and No. 75. Rather, it provides all items required that are not readily available from other sources and investment reports prepared by the plan's investment consultant.

Discount Rate

The discount rate, and all other actuarial assumptions, are those as those described in Exhibit 4. The discount rate was selected based on a projection of employer and employee contributions, benefit payments, expenses and the long term expected rate of return on trust assets.

Based on these laws and assumptions, the OPEBs plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

The Town selected 7.5% as the long term expectation of investment returns.

Net Position Restricted for OPEB

The Net Position Restricted for OPEB Plan Benefits as of June 30, 2021 is \$9,805,609. The 2021 Annual Statement of the Financial Condition contains the values for previous years and the changes in Net Position Restricted for OPEB Plan Benefits. Investments are reported at fair value.

EXHIBIT 1 – MEDICAL PREMIUM

Monthly Premiums effective July 1, 2021

Health benefits are available to employees and retirees through a number of plans. The following are gross monthly rates per subscriber for plans in which current Town employees and/or retirees are enrolled:

Harvard Pilgrim HMO (individual)	\$945.86
Harvard Pilgrim HMO (family)	\$2,417.18
Harvard Pilgrim High Deductible (individual)	\$808.10
Harvard Pilgrim High Deductible (family)	\$2,065.2
Harvard Pilgrim PPO (individual)	\$1,168.99
Harvard Pilgrim PPO (family)	\$3,255.70
Harvard Pilgrim Medicare (individual)	\$345.61

Post 1990 retirees contribute towards their coverage in the amount of 32% of stated premiums, with the PPO plan and surviving spouses, which is paid at 50% by the Town. Pre-1990 retirees contribute 15% and 32%.

EXHIBIT 2 – MEMBERSHIP DATA**As of July 1, 2021****Number of Participants included in valuation**

Total	1,313	391	78	1,782

EXHIBIT 3 – SUMMARY OF PLAN PROVISIONS:

Retirement Medical Insurance: All retirees not in the Blue Care Elect PPO plan pay a 32% share of their post-retirement medical costs. Retirees in the Medex plan pay 32% and surviving spouses pay a 50% cost share.

Life Insurance: The Town of Franklin contributes \$2.15 per month for each retiree receiving \$5,000 basic life insurance. Retirees that opt for life insurance pay \$2.15 per month for coverage.

Spousal Coverage: Current and future retirees may elect to include their spouses as part of their post-retirement benefits. There is lifetime spousal coverage for medical insurance.

Administrative Costs: The Town pays administrative costs for each member of the plan as part of the monthly premium.

Section 18 Coverage: The Town has elected to adopt Section 18 under Chapter 32B of the General Laws of Massachusetts, which requires that an employee or retiree must participate in the Medicare program as the primary payer once one reaches age 65 and is Medicare eligible.

Retirement Eligibility: Age 55 with 10 years of service, or 20 years of service. For a Group 1 employee hired on or after April 2, 2012, attainment of age 60 and completion of ten years of service

Ordinary Disability Eligibility: 10 years of service and under age 55.

Termination Eligibility: 10 years of service.

All Groups

TOWN OF FRANKLIN, ALL GROUPS

<i>Interest:</i>	Full Prefunding: 7.50% per year, net of investment expenses				
<i>Actuarial Cost Method:</i>	Entry Age Normal. Benefits are attributed ratably to service from date of hire until full eligibility date. Full eligibility date is assumed to be first eligibility for retiree medical benefits.				
<i>Healthcare Cost Trend Rate:</i>	<table> <tr> <th><u>Year</u></th><th><u>Inflation Rate</u></th></tr> <tr> <td>2021 & after</td><td>4.5%</td></tr> </table>	<u>Year</u>	<u>Inflation Rate</u>	2021 & after	4.5%
<u>Year</u>	<u>Inflation Rate</u>				
2021 & after	4.5%				
<i>Participation:</i>	95% of future retiree teachers and are assumed to participate in the retiree medical plan, 70% of future non-teacher retirees are expected to participate in the retiree medical plan and 75% of future retirees are expected to elect life insurance.				
<i>Marital Status:</i>	80% of male employees and 60% of female employees are assumed to have a covered spouse at retirement. Wives are assumed to be three years younger than their husbands.				
<i>Pre-Age 65 Retirees:</i>	Current retirees who are under age 65 are assumed to remain in their current medical plan until age 65. Current active employees who are assumed to retire prior to age 65 are valued with a weighted-average premium. This weighted-average premium is based on the medical plan coverage of current retirees under age 65.				
<i>Post-Age 65 Retirees:</i>	Current retirees over age 65 remain in their current medical plan until death for purposes of measuring their contributions. It is assumed that future retirees are Medicare eligible. It is furthermore assumed that all current retirees under 65 will participate in the Medex plan in the same proportion as current retirees over 65. Per capita costs were developed from the Town				

developed monthly costs. Amounts to be received in the future for the Medicare Part D Retiree Drug Subsidy are not reflected in the valuation.

Termination Benefit:

95% of current active teachers and 70% of current active non-teachers over age 50 with at least 10 years of service are expected to elect medical coverage starting at age 65.

Medical Plan Costs:

The estimated gross per capita incurred claim costs for all non-Teacher retirees and beneficiaries for 2021-22 at age 64 and 65 are \$15,538 and \$3,543, respectively. The estimated gross per capita incurred claim costs for all Teacher retirees and beneficiaries for 2021-20 at age 64 and 65 are \$19,533 and \$3,677, respectively. Medicare eligible retirees' per capita claims costs at age 65 is \$3,280. It is assumed that future retirees participate in the same manner as current retirees. Employee cost sharing is based on current rates. Future cost sharing is based on the weighted average of the current cost sharing of retirees and beneficiaries.

Teachers electing the increased benefit under Chapter 114 of the Acts of 2000 were assumed to have higher rates of retirement from ages 54 to 62 if their service was greater than 30 years. These rates are the same for males and females. The rate at age 54 is 0.035. The rate increases to 0.06 at age 55, 0.18 at age 56 and 0.30 at age 57. The rate for ages 58, 59 and 62 is 0.40. The rate for ages 60 and 61 is 0.35.

Mortality: It is assumed that both pre-retirement mortality and beneficiary mortality is represented by the RP-2014 White Collar Mortality with Scale MP-2016, fully generational.

CERTIFICATION:

This report fairly represents the actuarial position of the Franklin OPEB Plan as of June 30, 2021, in accordance with generally accepted actuarial principles applied consistently with the preceding valuation. In our opinion, the actuarial assumptions used to compute actuarial accrued liability and normal cost are reasonably related to plan experience and to reasonable expectations, and represents our best estimate of anticipated plan experience.

The funded status measure is appropriate for assessing the sufficiency of plan assets to cover the estimated cost of settling the plan's benefit obligations. The funded status measure is appropriate for assessing the need for or the amount of future contributions.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in plan provisions or applicable law. Due to the limited scope of our assignment, we did not perform an analysis of the potential range of such future measurements.

The report was prepared under the supervision of Daniel Sherman, an Associate of the Society of Actuaries and a Member of the American Academy of Actuaries, who takes responsibility for the overall appropriateness of the analysis, assumptions and results. Daniel Sherman is deemed to meet the General Qualification Standard and the basic education and experience requirement in the OPEB area. Based on over thirty years of performing valuations of similar complexity, Mr. Sherman is qualified by experience. Daniel Sherman has met the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.
