Mr Abdulrazzaq,

As is customary, for me, I will not comment outside of the meeting process once an application has been filed with the ZBA. Thank you for voicing your concerns. The ZBA will do a comprehensive review of the application. If you feel there is any conflicts of interest with any members of the ZBA, feel free to bring them up with the appropriate authority.

Thanks for your concern,

Bruce J Hunchard

Dear Mr. Hunchard,

I hope all is well. My name is Dr.Rusul Abdulrazzaq. I am new resident of Franklin town. I want to express my strong opposition to the Stobbart 40b project. As I believe it will increase the traffic flow and it will put pressure on our schools can you imagine the impact having 260 families with children on our schools. But if you don't mind me asking does our opinion matter or this is a done deal that everyone agreed on because Mr.Halligan own the property and this hearing is only a for a show? Because if that the case then you really don't care about our children future and the impact this project would make to our daily life.

Thank you so much for your time.

Yours sincerely,
Dr.Rusul Abdulrazzaq.
