Greetings Bruce, I hope you're well. I just wanted to express my strong opinion that such a large construction project at Stobbart's will have very negative impacts. I live on Lost Horse Trail, just near Jordan Rd., and have already experienced the significant traffic congestion due to the Taj Estates. More congestion is already enroute through the units being constructed opposite the Royal Cave. I certainly do not want to experience the congestion due to 264 new units. Also, I have children in the Franklin Public School system and believe the added burden to the FPS system is untenable. Budget shortfalls for FPS are already at extremis and cannot support additional need.

Thank you for reading.

All the best,

Tom
