

Access diabetes support at no cost to you.

Enroll in the Good Health Gateway® Diabetes Care Rewards Program to get started.

Whether you are newly diagnosed or have been living with pre-diabetes or any type of diabetes for a while, there is always something that can be learned to manage it more effectively so you feel and live well.

Being a participant in the Diabetes Care Rewards Program gives you unlimited access to our diabetes educators: pharmacists, nurses, and dietitians, for support and guidance to meet your A1C and health goals.

Plus, when you complete your diabetes care activities, you'll get \$0 copays on your covered diabetes medications and supplies such as glucometers, lancets, and test strips.

I wanted to take time to commend the support that Christine D. has given me and countless others in our struggle with Diabetes. She is easily the most knowledgeable and practical pharmacist I have dealt with in 22 years of my diabetic life. Our conversations are always up beat and funny while tackling all of my Diabetes and Rheumatoid Arthritis questions. She's a great asset.
