MEMORANDUM

Date: July 31, 2025

To: DPCD

From: J.S. Barbieri, Deputy Fire Chief

RE: 380 King St. – Site Plan

The applicant has provided us with an updated set of plans. The plan was altered to eliminate one of the main entrances to the project. The engineer was able to furnish a truck turning analysis to show that we are able to access the site from two alternative directions. Accordingly, we have no further comments at this time.

Please feel free to contact me if you have any questions or require any additional information.
