Hi Casey

Sorry for the late request. It's been frustrating for the owner because he's at the mercy of the builder, who in turn is waiting on the engineer to supply the Board with a drainage design. I told the builder I needed to know when we would have the design or I was going to ask to withdraw the application. This morning I did receive the information below from the builder....

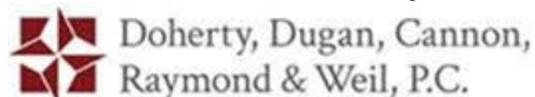

Jim Sullivan is out but I just spoke with Mike Hassett. The team is working on the stormwater and Mike was confident that we would have it finished up next week with calculations and a solution showing no negative impact to neighbors. I explained to Mike our next meeting opportunity was November 6th with an Oct 31st submission deadline.

So we would like to request to continue the matter on final time to the Board's Nov. 6th meeting, if there is room on the agenda (if not the next meeting is fine). If we do not receive the drainage design in time for that meeting I will be asking to withdraw the application at the Nov. 6th meeting (or other date is 11/6 is full).

Please let me know if Bruce would like me to appear via Zoom to explain the above to the Board or whether he thinks the matter will just be continued to the Nov. 6th meeting.

Thank you

Ted
