April 6, 2016

April is Autism Awareness month. In conjunction with Autism Awareness Month:

The Franklin Police Department has posted a new form on its website. The form is for first responders and is designed to assist them in a search or interaction with a person who is on the Autism Spectrum. It has space for a description, emergency contact information, other characteristics and a photo can be attached. If you have an Autistic Child or adult that you care for and would like to submit a form for us to have on file should we need to assist your loved one the link is attached. Paper copies are available at Franklin Police Dispatch also. All information will be kept strictly confidential.
