

RE: 57 Daniels St. Request
for Tree Removal
and future pruning

Activity

Removal 2 large pine trees that exceed the roofline of the house. They are within the 25-50 foot buffer zone. Both trees pose a risk to my home. In addition, approval for future pruning of trees being invaded by oriental bittersweet. I have engaged the services of a tree removal service (Walnut Tree), they have sent an arborist to assess. When approved, I expect the work to be done near the end of November.
