DEPARTMENT OF PUBLIC WORKS

Franklin Municipal Building
257 Fisher Street
Franklin, MA 02038-3026

July 16, 2021

Mr. Anthony Padula, Chairman
Members of the Franklin Planning Board
355 East Central Street
Franklin, MA 02038

RE: Site Plan – Factory Square, 5 Fisher Street

Dear Mr. Chairman and Members:

We have reviewed the submitted materials for the subject project and offer the following comments:

1. Applications that will need to be filed with the Franklin Department of Public Works may include, but are not necessarily limited to Water and Sewer Permits, Inflow & Infiltration Removal fees, and a Soil Erosion and Sediment Control Permit.
2. A proposed grease trap is shown on the plan, sizing calculations should also be noted on the plan.
3. The assigned street numbers for the existing buildings should be shown on the plan for reference.
4. There is a note on the plan to “Convert 3 existing structures to a single trench drain...” It is unclear where these structures outlet, as well as the three CB’s along the side of the building facing West Central St.
5. While the new impervious areas on the site are designed to meet current stormwater standards, existing impervious areas should also be upgraded to the maximum extent practical. There are areas where existing impervious areas from roof tops will be removed and replaced with impervious parking areas. These parking areas will be subject to TSS pollutants and should be designed to meet current standards. Also, retrofitting any existing inlets that are to remain should also be evaluated for improvements.
6. Relative to the above comment, we recommend that the pipe run with the three proposed catch basins along the Fisher St side should be designed to provide water quality and recharge improvements, as well as any other new inlets.
7. The applicant has indicated that a pre- vs. post-development drainage analysis was not provided due the overall net reduction in impervious area on the site.

However we note that there may be various changes in existing drainage patterns due to the removal of portions of buildings and increase of parking areas. The existing roof runoff drainage patterns should be evaluated in conjunction with the new parking areas to determine changes in how and where the runoff characteristics will change.

For example, the three new CB's along the Fisher St side noted above will be added to an existing drain line with a 16" outfall. The capacity of this existing outfall should be evaluated.

8. Any missing easements for town utility lines that run across the site should be resolved as part of the approval process.
9. Test pit locations should be shown on the plan and test pit logs should be provided.

Should you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

Michael Maglio, P.E.
Town Engineer

MEMORANDUM

DATE: July 19, 2021
TO: Franklin Planning Board
FROM: Department of Planning and Community Development
RE: 3, 5, 7 Fisher Street
Site Plan

The DPCD has reviewed the above referenced Site Plan application for the Monday, July 26, 2021 Planning Board meeting and offers the following commentary:

General:

1. The site is located at 3, 5, 7 Fisher Street in the Mixed Business Innovation Zoning District (Assessors Map 278 Lot 016) and consists of 14.7 acres.
2. The applicant is proposing a large scale redevelopment. Approximately 10,000 sq/ft of building and pavement will be removed and green space will be added. The remaining buildings will be modified and renovated. Additional parking will be added along with a stormwater system, and landscape.
3. The Applicant is not required to file with the Conservation Commission.
4. Applicant has not requested any waivers.
5. Letters have been received from DPW, Fire, Conservation and BETA is currently reviewing the plans.

Comments:

1. Applicant is scheduled with the Design Review Commission on August 3, 2021.
2. Several of the proposed uses will require a Special Permit from the Planning Board. DCPD recommends a condition be added that the uses will file for a Special Permit once they are known.
3. The applicant is required to provide 374 spaces and has provided 360 parking spaces.
4. Applicant should show where the snow storage will be located.
5. Applicant may want to add cross walks for pedestrian traffic through the parking area.
6. DPCD defers to DPW/Engineering and BETA Group, Inc. to address drainage issues.

FRANKLIN FIRE DEPARTMENT

TO : DPCD

FROM : J. S. BARBIERI, DEPUTY FIRE CHIEF

DATE : 21 JULY 2021

RE : SITE PLAN – 3, 5, & 7 FISHER ST –FACTORY SQUARE

Thank you for the opportunity to review the above referenced plan.

We have met with the proponent on the site and toured the project. The only item of concern at this time is the ability of our fire trucks to maneuver the proposed parking lot on the North East section of the site. We have provided information to the proponent to conduct a turning analysis.

We have no additional comments at this time. Please contact me should you have any question or require any additional information.

Amy/Mike,

According to their plan, all work is just outside conservation jurisdiction, but I'm curious if the ditch I see on the aerial photo is jurisdictional. I attached a photo with it circled in red.

Mike, do you know anything about it? Drainage upland ditch?

Thanks,
Jen

Town of Franklin, Planning Board
Attn: Mr. Anthony Padula, Chair
C/O Mrs. Amy. Love, Planner
355 East Central Street
Franklin, MA 02038

Re: Factory Square
3, 5 & 7 Fisher Street
LDG Proj. No.: 1899.00

Mr. Padula and Members of the Board:

Level Design Group, LLC (LDG) on behalf of Rick Kaplan does hereby submit the application and certificate of ownership for the redevelopment of the above referenced parcel. The application includes the removal of the accessory buildings on property and replacement with on multi-story multi use structure with drive under garage space and surface parking for the property.

The redevelopment will include the removal of pavement, regrading and addition on of-site drainage system compliant with Town and DEP requirements for the use and development. LDG looks forward to presenting to the Board at the next hearing.

This application is being filed in accordance with the Franklin Zoning Bylaw **§185-31 Site Plan and Design Review** for construction of commercial with Multi-Family Housing.

PRE-DEVELOPMENT CONDITIONS

The existing site is located at 3, 5 & 7Fisher Street in Franklin, MA. The majority of the site is developed with old factory and mixed use buildings. A small area of the site to the south east is undeveloped but is landscaped with grass and existing mature trees. The Site is bounded by West Central Street to the north. Fisher Street to the east, Hayward Street to the south and an existing BVW to the west. The adjacent properties to the roadways are residential with exception toward the southwest are more commercial facilities. The development site is approximately 14.7 ± Acres with approximately 85% of the existing property being developed with various sized and use buildings, pavement and utilities. Existing ground cover of the site includes the asphalt pavement and building footprint. The existing site does contain a formal stormwater management system which ultimately drains to the Bordering Vegetated Wetlands to the West.

The majority of the site is defined as redevelopment. The existing stormwater system serves the existing building and pavement and will be utilized to the maximum extent feasible for the redevelopment project. Approximately 10,000 s.f. of pavement and roof area will be removed and replaced with green space. This reduction in impervious area will cause runoff to be reduced for the redevelopment portion of the site. Due to the complexity of the existing utility systems the applicant is proposing to re-use the current configuration where feasible. Modified piping and drainage where necessary in the redevelopment area is shown on the site plans. The redevelopment

area has not been modeled for pre- and post- runoff due to the reduction of impervious area and the implied reduction of runoff to the same drainage point (the westerly BVW system).

The on-site soils as classified by the Soil Survey for Norfolk County Massachusetts, the redevelopment portion of the site area is classified as Urban Land. The new construction area of new parking is located in an area of Udorthents sandy, Hydrologic Soil Group A which are soils having a high infiltration rate (low runoff potential) when thoroughly wet. These soils consist mainly of deep, well drained to excessively drained sands or gravelly sands. Based on test pits done by Level Design Group, LLC parent material of the area for new construction is a Medium Gravelly Sand with a classification of HSG A. Please see the SCS soils documentation attached herein.

Based on current MAGIS Mapping the site is NOT located in any of the following environmentally sensitive areas:

- Areas of Critical Environmental Concern
- Natural Heritage and Endangered Species Program – Priority Habitats of Rare Species
- Natural Heritage and Endangered Species Program – Estimated Habitats of Rare Wildlife
- Natural Heritage and Endangered Species Program – Natural Communities
- Natural Heritage and Endangered Species Program – Certified Vernal Pools
- MADEP Wellhead Protection Areas – Zone 1 & Zone 2
- Surface Water Supply Protection Areas – Zone A, Zone B, & Zone C
- MADEP Surface Water Supply Watersheds
- MA DFW Coldwater Fisheries Resource Area.

POST-DEVELOPMENT CONDITIONS

The Applicant is proposing to redevelop the site and renovate and rehab the existing buildings for a mixed-use development. A portion of the existing buildings will be demolished and replaced with parking, patios and green space. The existing catch basins and drainage in those area will be re-used to capture the runoff from the reconfigured impervious areas. Impervious areas will be reduced for the redevelopment areas and due to the complexity of the site the existing drainage will stay in place to the maximum extent feasible and no additional calculations will be provided for the existing system. During construction, if it is determined that a portion of the existing system is failing or inadequate, the engineer shall be consulted and a replacement or redesign of those components will be considered.

A new fully compliant stormwater management system has been designed to support the area of new construction in the southeast corner of the property. The newly designed parking lot will collect the runoff, treat it, and infiltrated the runoff into a subsurface infiltration system. Deep sump catch basins will capture the runoff, then it will be routed through proprietary treatment structures, then infiltrated after pretreatment has been achieved. Runoff from the impervious areas and building rooftops will be directed to two infiltrating BMPs.

The total proposed site impervious coverage is reduced in the post development due to the demolition of buildings as detailed on the plans. With the proposed development as proposed there is a net increase in TSS removal with the installation of stormwater treatment prior to discharge.

CONCLUSION

The development as proposed meets or exceeds the requirements of the Zoning district and associated site plan regulations for this development.

Enclosed please find:

- 2 Full Size sets of plans
- 5 reduced (11x17) size sets of plans
- 7 copies of associated documentation
- \$6,300 filing fee
- \$50 fee for the Fire department

I look forward to meeting with the Board at the next meeting. If there are any questions prior to the hearing please do not hesitate to ask.

Truly yours,

LEVEL DESIGN GROUP, LLC

Re: Factory Square
5 Fisher Street
Franklin, MA

Dear Mr. Padula,

O'Reilly, Talbot & Okun Associates, Inc. (OTO) is engaged as the Licensed Site Professionals (LSP) of the Factory Square development. While the construction activities are on-going, we will be coordinating with the Owner and the Massachusetts Department of Environmental Protection on necessary documentation as required in the site Activity and Use Limitation (AUL). As the LSP-of-record I will also be on call if additional materials are noted during construction.

Please feel free to contact me if you have any questions.

Very truly yours,
O'Reilly, Talbot & Okun Associates, Inc.

A handwritten signature in blue ink that reads "Bruce H. Nickelsen".

Form 1075

NOTICE OF ACTIVITY AND USE LIMITATION

M.G.L. c. 21E, § 6 and 310 CMR 40.0000

Disposal Site Name: Clark-Cutler-McDermott Company (CCM)

DEP Release Tracking No.: 4-01044.

Address of Premises: 5 Fisher Street, Franklin, Massachusetts.

This Notice of Activity and Use Limitation ("Notice") is made as of this 29th day of November, 2005, by Clark-Cutler-McDermott Company (CCM), a Massachusetts Corporation with an address of 5 Fisher Street, Franklin, Massachusetts, together with its successors and assigns (collectively "Owner").

WITNESSETH:

WHEREAS, CCM, of 5 Fisher Street, Franklin, Massachusetts, is the owner(s) in fee simple of that certain parcel of land located in Franklin, Norfolk County, Massachusetts with the buildings and improvements thereon, pursuant to a deed recorded with the Norfolk County Registry of Deeds in Book 1187, Page 150;

WHEREAS, said parcel(s) of land, which is more particularly bounded and described in Exhibit A, attached hereto and made a part hereof ("Property") is subject to this Notice of Activity and Use Limitation. The Property is shown on a plan recorded in the Norfolk District Registry of Deeds in Plan Book 0546, Plan 82;

WHEREAS, portions of the Property ("Portions of the Property") is subject to this Notice of Activity and Use Limitation. The Portions of the Property are more particularly bounded and described in Exhibit A-1, attached hereto and made a part hereof. The Portions of the Property are shown on plan recorded with Norfolk County Registry of Deeds in Plan Book 0546, Plan 81;

WHEREAS, the Portions of the Property comprise part of a disposal site as the result of a release of oil and/or hazardous material. Exhibit B is a sketch plan showing the relationships of the Portions of the Property subject to this Notice of Activity and Use Limitation to the boundaries of said disposal site existing within the limits of the Property and to the extent such boundaries have been established. Exhibit B is attached hereto and made a part hereof; and

WHEREAS, one or more response actions have been selected for Portions of the Disposal Site in accordance with M.G.L. c. 21E ("Chapter 21E") and the Massachusetts Contingency Plan, 310 CMR 40.0000 ("MCP"). Said response actions are based upon (a) the restriction of human access to and contact with oil and/or hazardous material in soil and/or (b) the restriction of certain activities occurring in, on, through, over or under the Portions of the Property. The basis for such restrictions is set forth in an Activity and Use Limitation Opinion ("AUL Opinion"), dated November 28, 2005, (which is attached hereto as Exhibit C and made a part hereof);

NOW, THEREFORE, notice is hereby given that the activity and use limitations set forth in said AUL Opinion are as follows:

1. Activities and Uses Consistent with the AUL Opinion. The AUL Opinion provides that a condition of No Significant Risk to human health, safety, public welfare and the environment exists for any foreseeable period of time (pursuant to 310 CMR 40.0000) so long as any of the following activities and uses occur on the Portion of the Property:

- (i) Commercial and industrial activities and uses which do not cause and/or result in direct contact with, disturbance of, and/or relocation of, the petroleum-contaminated soil and/or direct contact with groundwater currently located at depths of 4 to 13 feet below surface grade;

- (ii) Landscaping and routine maintenance of landscaped areas which do not cause and/or result in direct contact with, disturbance of, and/or relocation of, the petroleum-contaminated soil and/or groundwater currently located at depths of 4 to 13 feet below surface grade;

- (iii) Soil intrusive activities associated with underground utility and/or construction work, landscaping, and routine maintenance of landscaped areas which is likely to disturb petroleum-contaminated soil and/or groundwater between 4 to 13 feet below surface grade provided that it is conducted in accordance with a Soil Management Plan (SMP) and Health and Safety Plan (HASP) prepared and implemented in accordance with Obligation 3. (i) and (ii) of this Notice prior to the commencement of such activity;

- (iv) Such other activities or uses which, in the Opinion of an LSP, shall present no greater risk of harm to health, safety, public welfare, or the environment than the activities and uses set forth in this paragraph.

- (v) Such other activities and uses not identified as being Activities and Uses inconsistent with the Opinion.

2. Activities and Uses Inconsistent with the AUL Opinion. Activities and uses which are inconsistent with the objectives of the AUL Opinion, and which, if implemented at the Portion of the Property, may result in a significant risk of harm to health, safety, public welfare, or the environment or in a substantial hazard, are as follows:

- (i) Use of the Portion of the Property as a residence, school, nursery, daycare or recreational facility without a LSP Evaluation Opinion that such use is consistent with maintaining a Condition of No Significant Risk;

- (ii) Soil intrusive activities including, but not limited to, excavation that is likely to disturb petroleum-impacted soil and/or groundwater located between 4 to 13 feet below surface grade without the prior development and implementation of a SMP and HASP in accordance with Obligations 3. (i) and (ii) of this Notice;

(iii) Any other activities and/or uses which are likely to disturb contaminated soil in a manner that would make it significantly more accessible without prior development of a SMP and a HASP in accordance with Obligations and Conditions enumerated below.

3. Obligations and Conditions Set Forth in the AUL Opinion. Obligations and/or conditions to be undertaken and/or maintained at the Portion of the Property to maintain a condition of No Significant Risk as set forth in the AUL Opinion shall include the following:

(i) A Soil Management Plan must be prepared by an LSP and implemented prior to the commencement of any activity that is likely to disturb the contaminated soil and/or groundwater located between 4 to 13 feet below surface grade. The Soil Management Plan should describe appropriate soil excavation, handling, storage, transport, and disposal procedures required when handling soils in the Portion of the Property. The Soil Management Plan should be developed to be sufficiently protective of human health consistent with the provisions of the Massachusetts Contingency Plan and must incorporate the provisions of the HASP described in Obligation (ii) below. On-site workers must be informed of the requirements of the Soil Management Plan, and the plan must be available on-site throughout the course of the project.

(ii) A Health and Safety Plan must be prepared by an Industrial Hygienist or other qualified individual sufficiently trained in worker health and safety requirements and implemented prior to the commencement of any activity which is likely to disturb contaminated soil between 4 and 13 feet below surface grade. The plan should clearly describe the location of the contaminated soil and specifically identify the types of personnel protective equipment, monitoring devices, and/or engineering controls necessary to protect the workers. Workers who may come in contact with contaminated soil within the Portion of the Property must be informed of the location of the contamination and the requirements of the HASP. The plan must be available on-site throughout the course of the project.

4. Proposed Changes in Activities and Uses. Any proposed changes in activities and uses at the Portions of the Property which may result in higher levels of exposure to oil and/or hazardous material than currently exist shall be evaluated by an LSP who shall render an Opinion, in accordance with 310 CMR 40.1080 *et seq.*, as to whether the proposed changes will present a significant risk of harm to health, safety, public welfare or the environment. Any and all requirements set forth in the Opinion to meet the objective of this Notice shall be satisfied before any such activity or use is commenced.

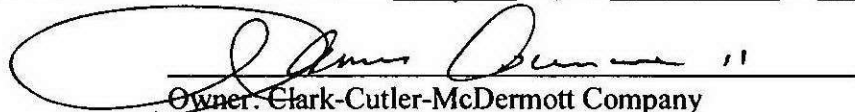

5. Violation of a Response Action Outcome. The activities, uses and/or exposures upon which this Notice is based shall not change at any time to cause a significant risk of harm to health, safety, public welfare, or the environment or to create substantial hazards due to exposure to oil and/or hazardous material without the prior evaluation by an LSP in accordance with 310 CMR 40.1080 *et seq.*, and without additional response actions, if necessary, to achieve or maintain a condition of No Significant Risk or to eliminate substantial hazards.

If the activities, uses, and/or exposures upon which this Notice is based change without the prior evaluation and additional response actions determined to be necessary by an LSP in accordance with 310 CMR 40.1080 *et seq.*, the owner or operator of the Portions of the Property subject to this Notice at the time that the activities, uses and/or exposures change, shall comply with the requirements set forth in 310 CMR 40.0020.

6. Incorporation Into Deeds, Mortgages, Leases, and Instruments of Transfer. This Notice shall be incorporated either in full or by reference into all future deeds, easements, mortgages, leases, licenses, occupancy agreements or any other instrument of transfer, whereby an interest in and/or a right to use the Property or a portion thereof is conveyed.

Owner hereby authorizes and consents to the filing and recordation and/or registration of this Notice, said Notice to become effective when executed under seal by the undersigned LSP, and recorded and/or registered with the appropriate Registry(ies) of Deeds and/or Land Registration Office(s).

WITNESS the execution hereof under seal this 29 day of NOV. 2005.

Owner: Clark-Cutler-McDermott Company

By: James Aimone, II

Its: Executive Vice President

THE COMMONWEALTH OF MASSACHUSETTS

Norfolk (County), ss.

On this 29 day of November 2005, before me, the undersigned notary public, personally appeared James Aimone, II, Executive Vice of Clark-Cutler-McDermott Company, proved to me through satisfactory evidence of identification, which was Mass. Dr. Lic. photographic identification with signature issued by a federal or state governmental agency, _____ oath or affirmation of a credible witness, _____ personal knowledge of the undersigned, to be the person whose name is signed on the preceding or attached document(s), and acknowledged to me that James Aimone, II signed it voluntarily for its stated purpose as Executive Vice President of Clark-Cutler-McDermott Company.

My commission expires:

Upon recording, return to:

James Aimone, II
Clark-Cutler-McDermott Company-
5 Fisher Street
Franklin, Massachusetts 02038

Exhibit A – Metes and Bounds Description of Parcel

EXHIBIT A

A certain piece or parcel of land, situated in Franklin, Norfolk County, Massachusetts at the westerly corner of Fisher and Central Streets, and being bounded and described in Norfolk County Registry of Deeds in Book 1187 Page 150 as follows:

Beginning at the easterly corner thereof at the corner of said streets and thence running

Northwesterly on said Central Street, to a wall, by land of Harry T. Hayward; thence

Southwesterly on the wall by land of said Hayward to a corner; thence

Southeasterly on land of said Hayward, formerly of Emery Thayer, by a wall, to said Fisher Street; thence

Northeasterly on said Fisher Street, to the point of beginning

Containing three and one-half acres more or less.

Exhibit A-1 – Metes and Bounds Description of AUL Portion of Property

F-3184

Area of
Activity & Use Limitation
(A.U.L.)

An Area of Activity and Use Limitation (A.U.L.) on land N/F of Clark-Cutler McDermott Co., located northwesterly of Fisher Street and southwesterly of West Central Street in Franklin, Norfolk County, Massachusetts and being bounded and described as follows:

Beginning at a point on land N/F of Clark-Cutler McDermott Co. on the northerly face of wall of the southernmost building known as 5 Fisher Street at the southerly corner of the A.U.L. herein described, said point being located N 32°38'44" E a distance of 281.98' from a drillhole in a stone bound found at an angle point in the northwesterly sideline of Fisher Street; thence running

N 44°20'02" W	165.57 feet to a point; thence running
N 45°39'58" E	128.50 feet to a point; thence running
S 44°20'02" E	69.76 feet to a point at a corner of the southerly face of walls of the northerly building known as 5 Fisher Street; thence running
N 45°39'58" E	56.07 feet along the face of wall of the northerly building known as 5 Fisher Street to a point; thence running
S 44°20'02" E	39.43 feet to a point at a corner of the northerly face of walls of the southerly building known as 5 Fisher Street; thence running
S 45°39'58" W	62.50 feet to a point at a corner; thence running
S 02°36'27" W	16.70 feet to a point at a corner; thence running
S 44°34'14" E	48.40 feet to a point at a corner; thence running
S 45°39'58" W	7.80 feet to a point at a corner; thence running
N 44°20'02" W	10.20 feet to a point at a corner; thence running
S 45°39'58" W	62.50 feet to a point at a corner; thence running
S 44°20'02" E	10.00 feet to a point at a corner; thence running
S 45°39'58" W	18.70 feet to a point at a corner; thence running
N 44°20'02" W	3.20 feet to a point at a corner; thence running

S 45°39'58" W

21.03 feet to the Point of Beginning, the last ten courses along the northerly face of walls of the southerly building known as 5 Fisher Street.

The above-described Area of Activity and Use Limitation (A.U.L.) is more particularly shown and described on a plan entitled: "Area of Activity and Use Limitation (A.U.L.) Plan of Land in Franklin, Massachusetts"; Date: August 1, 2005, Scale: As Shown; Prepared by: Guerriere & Halnon, Inc., Engineering and Land Surveying, 38 Pond Street, Suite 206, Franklin, MA 02038.

The above-described Area of Activity and Use Limitation (A.U.L.) contains an area of 22,168 S.F. more or less.

Exhibit B – Site Sketch

Exhibit C - Activity and Use Limitation Opinion Narrative

Exhibit C

Activity and Use Limitation Opinion

In accordance with Section 40.1074 of the Massachusetts Contingency Plan (MCP; 310 CMR 40), this Activity and Use Limitation (AUL) Opinion has been prepared to support a Notice of Activity and Use Limitation ("NAUL") for a portion of the parcel of land ("Portion of the Property" or Effected Area") located at 5 Fisher Street in Franklin, Massachusetts. The legal metes and bounds description of the entire 5 Fisher Street property is provided in Exhibit A, while the metes and bounds description of the Portion of the Property subject to the AUL is provided in Exhibit A-1. Exhibit B shows the disposal site limits, AUL boundaries and its relationship to the property boundaries. The AUL boundaries are all located within a 3.5 acre portion of the property described in a deed recorded with the Norfolk County Registry of Deeds in Book 13296 Page 112. The MCP is the Commonwealth of Massachusetts' code of regulations for the notification, assessment, and cleanup of disposal sites where a release of oil and/or hazardous materials (OHM) has occurred.

Site History

As of the date of this AUL Opinion, the entire 5 Fisher Street property consists of approximately 14.75 acres of land and is improved with several industrial buildings. The buildings have been occupied by the Clark Cutler McDermott Company (CCM) since the early 1900s. CCM originally manufactured horse blankets and evolved to primarily manufacturing non-woven fiber products to support the auto industry and oleophilic absorbent fabric pads used by the environmental industry. The Site is zoned for commercial and industrial use and is currently covered in either pavement or building foundations.

During the removal of a 20,000-gallon underground storage tank (UST) on the Site on July 11, 1990, a release of No. 6 fuel oil was discovered and reported to the Massachusetts Department of Environmental Protection (MADEP). The total volume of No. 6 fuel oil released remains unknown. The release was first designated by MADEP as Incident Response No. 590-0509, but was later assigned RTN No. 4-01044, as per a MADEP Notice of Responsibility (NOR) letter dated March 15, 1991. Environmental assessment and remediation activities conducted at the Site under the MCP have been documented in numerous reports which are available for review at the MADEP Southeast Regional Office.

Response actions completed under the MCP have been performed at the Site since circa 1990. These response actions have included site investigations to determine the extent of fuel oil in the subsurface and a variety of oil recovery techniques including vacuum truck extraction and manual techniques such as bailing. Based on the results of Phase I and Phase II site investigations, extractable petroleum hydrocarbons (EPH) and polycyclic aromatic hydrocarbons (PAHs) remain in soil at the Site in the area of the former UST. A Site Plan depicting the location of the former UST and other Site features is provided as Exhibit B. Passive light non-aqueous phase liquid (LNAPL or oil) skimming has been implemented on the Site to remove the free-phase oil found in on-Site groundwater monitoring wells in the area of the

former UST. Based on LNAPL gauging results completed in 2004 - 2005, no LNAPL was detected in functional on-Site wells above the allowable 0.5 inch Upper Concentration Limit.

The Portion of the Property subject to this AUL is located beneath a portion of the central courtyard and under the boiler room building of the CCM facility. A sketch plan of the disposal site depicting the location of the Portion of the Property subject to the AUL is provided in Exhibit B.

Reason for Activity and Use Limitation

A Method 3 Risk Characterization was conducted to evaluate the risk posed by the petroleum hydrocarbons remaining at the Site. Using the Method 3 approach, a Site-specific risk characterization was performed for current and future Site uses to evaluate the potential risk of harm to human health, safety, public welfare, and the environment. The Method 3 Risk Characterization concluded that the Site, due to the presence of subsurface oil in the Portion of the Property, poses a Significant Risk of harm to human health for construction workers who may be exposed through inhalation to C₁₁-C₂₂ aromatic hydrocarbons that volatilize from soil into the construction workers' breathing space during soil intrusive activities. Construction worker exposure was also considered representative of short-term exposure that could be experienced by other human receptor groups, such as utility and landscape workers.

To address the risk to construction workers, an AUL will be implemented for the Portion of the Property. Specifically, the AUL requires that a Soil Management Plan (SMP) and site Health and Safety Plan (HASP) be developed under the supervision of an LSP when intrusive, subsurface work is to be conducted in the Portion of the Property to which this AUL applies. The SMP and HASP will require that measures be taken to either reduce the soil volatility and or reduce worker inhalation exposure, depending upon the nature of the project. For example, projects with relatively small, short duration excavations may only require respiratory protection whereas projects requiring more extensive excavation may also require the use of engineering controls to reduce soil volatility. If a reduction in soil volatility is determined to be the most appropriate control measure, techniques such as the addition of foam to control emissions from impacted soil could be employed. If the reduction of worker inhalation exposure is determined to be the appropriate control measure, the use of respirators with the proper filter cartridges could be employed. In either case, construction worker exposure must be monitored to ensure that inhalation exposures are below levels of concern.

The Method 3 Risk Characterization did not identify a Significant Risk of harm to human health for potential future residents on the property if it was to be used for residential purposes in the future. Due to the limited data set from which this conclusion was drawn the AUL was conservatively established. The AUL will prohibit the use of the AUL Portion of the Property for residential or similar purposes without a LSP Evaluation Opinion that such use is consistent with maintaining a Condition of No Significant Risk of harm to human health under the contemplated residential use scenario.

Specifications of Site AUL

1. **Activities and Uses Consistent with the AUL Opinion.** This AUL Opinion provides that a condition of No Significant Risk to human health, safety, public welfare and the environment exists for any foreseeable period of time (pursuant to 310 CMR 40.0000) so long as any of the following activities and uses occur on the Portion of the Property:
 - (i) Commercial and industrial activities and uses which do not cause and/or result in direct contact with, disturbance of, and/or relocation of, the petroleum-contaminated soil and/or direct contact with groundwater currently located at depths of 4 to 13 feet below surface grade;
 - (ii) Landscaping and routine maintenance of landscaped areas which do not cause and/or result in direct contact with, disturbance of, and/or relocation of, the petroleum-contaminated soil and/or groundwater currently located at depths of 4 to 13 feet below surface grade;
 - (iii) Soil intrusive activities associated with underground utility and/or construction work, landscaping, and routine maintenance of landscaped areas which is likely to disturb petroleum-contaminated soil and/or groundwater between 4 to 13 feet below surface grade provided that it is conducted in accordance with a Soil Management Plan (SMP) and Health and Safety Plan (HASP) prepared and implemented in accordance with Obligation (i) and (ii) of this Opinion prior to the commencement of such activity;
 - (iv) Such other activities or uses which, in the Opinion of an LSP, shall present no greater risk of harm to health, safety, public welfare, or the environment than the activities and uses set forth in this paragraph; and
 - (v) Such other activities and uses not identified as being Activities and Uses inconsistent with the AUL.

2. **Activities and Uses Inconsistent with the AUL Opinion.** Activities and uses which are inconsistent with the objectives of the AUL, and which, if implemented at the Portion of the Property, may result in a significant risk of harm to health, safety, public welfare, or the environment or in a substantial hazard, are as follows:
 - (i) Use of the Portion of the Property as a residence, school, nursery, daycare or recreational facility without a LSP Evaluation Opinion that such use is consistent with maintaining a Condition of No Significant Risk;
 - (ii) Soil intrusive activities including, but not limited to, excavation that is likely to disturb petroleum-impacted soil and/or groundwater located between 4 to 13 feet below surface grade

without the prior development and implementation of a SMP and HASP in accordance with Obligations (i) and (ii) of this Opinion; and

(iii) Any other activities and/or uses which are likely to disturb contaminated soil in a manner that would make it significantly more accessible without prior development of a SMP and a HASP in accordance with Obligations and Conditions enumerated below.

3. **Obligations and Conditions Set Forth in the AUL Opinion.** Obligations and/or conditions to be undertaken and/or maintained at the Portion of the Property to maintain a condition of No Significant Risk as set forth in the AUL Opinion shall include the following:

(i) A Soil Management Plan must be prepared by an LSP and implemented prior to the commencement of any activity that is likely to disturb the contaminated soil and/or groundwater located between 4 to 13 feet below surface grade. The Soil Management Plan should describe appropriate soil excavation, handling, storage, transport, and disposal procedures required when handling soils in the Portion of the Property. The Soil Management Plan should be developed to be sufficiently protective of human health consistent with the provisions of the Massachusetts Contingency Plan and must incorporate the provisions of the HASP described in Obligation (ii) below. On-site workers must be informed of the requirements of the Soil Management Plan, and the plan must be available on-site throughout the course of the project.

(ii) A Health and Safety Plan must be prepared by an Industrial Hygienist or other qualified individual sufficiently trained in worker health and safety requirements and implemented prior to the commencement of any activity which is likely to disturb contaminated soil between 4 and 13 feet below surface grade. The plan should clearly describe the location of the contaminated soil and specifically identify the types of personnel protective equipment, monitoring devices, and/or engineering controls necessary to protect the workers. Workers who may come in contact with contaminated soil within the Portion of the Property must be informed of the location of the contamination and the requirements of the HASP. The plan must be available on-site throughout the course of the project.

The following notice will be published in the Milford Daily Newspaper once on Monday, July 12, 2021 and again on July 19, 2021

FRANKLIN PLANNING BOARD PUBLIC HEARING NOTICE

In accordance with the Town of Franklin Zoning By-Laws, the Franklin Planning Board will hold a public hearing at the Town Hall (which can also be attended remotely) on **Monday, July 26, 2021 at 7:10 PM**, for a Site Plan application at 3, 5, and 7 Fisher Street in Franklin, MA prepared by Level Design Group, LLC, Plainville, MA 02762, and submitted to the Department of Planning & Community Development, by Rick Kaplan, 1 Fisher Street, Franklin, MA 02038.

The property is located on Fisher Street (Assessors Map 278 Lot 16) in the Mixed Business Innovation District. The applicant is proposing to convert existing buildings into adaptive reuse for commercial purposes.

The hearing will provide an open forum for the discussion. This meeting will be held at the Franklin Municipal Building at 355 East Central Street in the Town Council Chambers on the second floor. It will also be broadcasted via zoom platform.

Please note: This will be your only written notice of this public hearing. All future Public Hearings on this matter, will be posted on the Planning Board's website under Agendas.

Please contact the Department of Planning & Community Development at (508) 520-4907 if you require further information or if you need to make arrangements to provide translation services for the hearing impaired, or for persons with language barriers.
