B. Determinations

1. I request the Franklin Conservation Commission make the following determination(s). Check any that apply:

- a. whether the **area** depicted on plan(s) and/or map(s) referenced below is an area subject to jurisdiction of the Wetlands Protection Act.
- b. whether the **boundaries** of resource area(s) depicted on plan(s) and/or map(s) referenced below are accurately delineated.
- c. whether the **work** depicted on plan(s) referenced below is subject to the Wetlands Protection Act.
- d. whether the area and/or work depicted on plan(s) referenced below is subject to the jurisdiction of any **municipal wetlands ordinance** or **bylaw** of:

Franklin
Name of Municipality

- e. whether the following **scope of alternatives** is adequate for work in the Riverfront Area as depicted on referenced plan(s).

NA

WPA Form 1- Request for Determination of Applicability

Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

C. Project Description

1. a. Project Location (use maps and plans to identify the location of the area subject to this request):

48 Maple Street	Franklin
Street Address	City/Town
261-001-000-000	
Assessors Map/Plat Number	Parcel/Lot Number

b. Area Description (use additional paper, if necessary):

The area of the proposed work is currently maintain as lawn.

c. Plan and/or Map Reference(s):

Septic Design Plan In Franklin, Massachusetts	6-23-2022
Title	Date
_____	_____
Title	Date
_____	_____
Title	Date
_____	_____

2. a. Work Description (use additional paper and/or provide plan(s) of work, if necessary):

The applicant is proposing a Remedial Upgrade to the existing subsurface sewer disposal system to meet current Title V standards. The existing system is located to the rear of the existing house and adjacent to the driveway. The existing 1,500 gallon septic tank will be inspected and if in good repair remain in place. The existing leaching system will be removed to allow the installation of the replacement leaching system in approximately the same location. A discription of the proposed construction is attached.

WPA Form 1- Request for Determination of Applicability
Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

C. Project Description (cont.)

b. Identify provisions of the Wetlands Protection Act or regulations which may exempt the applicant from having to file a Notice of Intent for all or part of the described work (use additional paper, if necessary).

Under 310 CMR 10.2(1)&(2)(b)e - Minor Activities -The proposed upgrade of existing septic systems is exempt if the replacement system is locate greater tha 50 feet from the resource area and the propose work includes erosion and siltation controls as part of the planned work.

3. a. If this application is a Request for Determination of Scope of Alternatives for work in the Riverfront Area, indicate the one classification below that best describes the project.

- Single family house on a lot recorded on or before 8/1/96
- Single family house on a lot recorded after 8/1/96
- Expansion of an existing structure on a lot recorded after 8/1/96
- Project, other than a single-family house or public project, where the applicant owned the lot before 8/7/96
- New agriculture or aquaculture project
- Public project where funds were appropriated prior to 8/7/96
- Project on a lot shown on an approved, definitive subdivision plan where there is a recorded deed restriction limiting total alteration of the Riverfront Area for the entire subdivision
- Residential subdivision; institutional, industrial, or commercial project
- Municipal project
- District, county, state, or federal government project
- Project required to evaluate off-site alternatives in more than one municipality in an Environmental Impact Report under MEPA or in an alternatives analysis pursuant to an application for a 404 permit from the U.S. Army Corps of Engineers or 401 Water Quality Certification from the Department of Environmental Protection.

b. Provide evidence (e.g., record of date subdivision lot was recorded) supporting the classification above (use additional paper and/or attach appropriate documents, if necessary.)

WPA Form 1- Request for Determination of Applicability
Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

D. Signatures and Submittal Requirements

I hereby certify under the penalties of perjury that the foregoing Request for Determination of Applicability and accompanying plans, documents, and supporting data are true and complete to the best of my knowledge.

I further certify that the property owner, if different from the applicant, and the appropriate DEP Regional Office were sent a complete copy of this Request (including all appropriate documentation) simultaneously with the submittal of this Request to the Conservation Commission.

Failure by the applicant to send copies in a timely manner may result in dismissal of the Request for Determination of Applicability.

APPLICATION PROCESS SIGNATURE FORM

There are three different applications that can be submitted to undertake work in a jurisdictional area: a Notice of Intent (NOI), a Request for Determination (RDA) and a Minor Buffer Zone Activity (MBZA). All three applications have different criteria for submission and approval and the NOI and RDA are governed by both the state law and the local bylaw. The MBZA is issued under the local bylaw only.

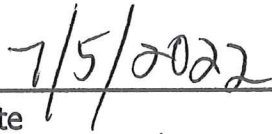

When a potential applicant requests advice from the Conservation Agent on which application to file, the opinion of the Agent is based on the information given by the potential applicant and any other information available to the Agent, e.g. the town's GIS system. The Agent has no legal right to go onto private property at any time until after an application is filed or permission of the property owner is given.

It is important that all applicants understand that after an application is filed, additional information may come to light e.g. via a field inspection or a review of the application, that may impact the scope of the submitted application and the approval process. **Therefore, it is the ultimate responsibility of the applicant to decide which application to file.**

In light of the above, please sign below indicating an understanding of this policy and submit it with the application.

PROPERTY ACCESS SIGNATURE FORM

I hereby request that the Franklin Conservation Commission review this NOI/RDA/ANRAD application. I (we) grant authority to the Franklin Conservation Commission members and agents to go onto my (our) property solely for purposes directly related to the inspection and approval of this application and for follow-up compliance with the permit conditions.

**Construction Sequence for
48 Maple Street Franklin, MA
July 1, 2022**

General: The applicant is proposing a Remedial Upgraded to the existing subsurface sewer disposal system to meet current Title V standards. The existing septic tank will be inspected and if in good repair it will be reused. The existing leach field will be removed to allow for the installation of a new system. Excavated material may be temporary stored onsite during construction.

The proposed work is within the 50 to 100-foot buffer and consists of connecting the existing 1,500- gallon tank to the new leach field

Proposed Access: Access will be from the driveway with a temporary staging area adjacent to the proposed septic system.

Construction Equipment: The proposed work will require the use of a back hoe, or excavator for the site preparation. A dump truck will be used to remove and deliver material to the site during the construction period. Fueling of construction equipment will be outside of the 100-foot buffer.

Proposed Work: The work includes inspecting the existing 1,500-gallon septic tank and removing the existing leach field and installing a new one in approximately same location, additional site work includes:

1. Install siltation and erosions around the area to be disturbed.
2. Remove the existing leach field to allow for a new system. Material removed from the existing leach field will be removed from the site.
3. Install new leach field.
4. Backfill and rough grade all disturbed areas.
5. All disturbed areas will be loamed and seeded.

Environmental Controls: Prior to start of construction siltation and erosion controls will be installed between the work area and the delineated wetland. All siltation and erosion controls will be maintained in-place until all disturbed areas have been stabilized.
