2020 Census Operational Timeline

PURPOSE OF ADDRESS CANVASSING

The Address Canvassing Operation serves two purposes:

- Deliver a complete and accurate address list and spatial database for enumeration.
- Determine the type and address characteristics for each living quarter.

Specifically, this operation implements both in-office and in-field methods to maintain and update the United States Census Bureau's address list in advance of the 2020 Census enumeration. The Census Bureau needs the address and physical location of each living quarter in the United States and Puerto Rico to conduct and tabulate the census. An accurate list ensures that residents will be invited to participate in the census and that the census counts residents in the correct location.

RE-ENGINEERED ADDRESS CANVASSING WITH IN-OFFICE ADDRESS CANVASSING

In Interactive Review, clerical staff use a customized application to:

- Compare housing units that existed in 2009 baseline images to what exists in current imagery to identify change on the ground.
- Compare counts of housing units in the Master Address File to housing units shown in current imagery to identify coverage or geocoding issues.
- Assess current imagery for signs of stability or future change.
- Imagery is a critical component of In-Office Address Canvassing: we have the ability to canvass blocks from an office location without having to go out and do so in the field.

MAINTAINING AN ACCURATE ADDRESS LIST

On-going Maintenance and Update

- U.S. Postal Service's Delivery Sequence File
- Tribal, state, and local government address lists
- Continuous identification of stability and change

Local Update of Census Addresses

- Opportunity for tribal, state, and local governments to review and update the Census Bureau's address list for their respective jurisdictions (Feb-April 2018)

Address Canvassing

- Nationwide In-Office Address Canvassing
- Annual In-field data collection, checks, and tests
- In-Field Address Canvassing
