

'Community Conversations on Substance Use Disorders'
A Program of the S.A.F.E. Coalition

7:00 pm, THURSDAY, MARCH 16, 2017
Franklin High School Auditorium

**THE ADOLESCENT BRAIN & THE
PHYSIOLOGY OF ADDICTION:**

Effects of Drug-Taking Behavior on the Brain

An acknowledged expert on adolescent brain development and its impact on teenage risk taking, including alcohol and substance abuse, she blends scientific research with hands-on understanding of the challenges of raising healthy teens. She has addressed professional and community audiences throughout Massachusetts.
