

# Take & Make Desk Organizer!

## Materials Provided:

- Container
- 1 End Cap
- Tissue Paper
- Mod Podge
- Glitter Glaze
- Paint Brush

## Directions:

- Begin by using the Mod Podge to glue the end cap to one end of the container. This will create the base for the Desk Organizer.
- Using the Mod Podge glue the tissue paper to the container.
  - Apply a thin layer of Mod Podge directly to the container and cover with tissue paper pieces.
  - As you go you may need to apply Mod Podge on top of the tissue paper if the pieces are overlapping at all.
  - When you have a decent size area covered in tissue paper apply a thin layer of Mod Podge on top to create a sealant.
  - Continue this process until you are satisfied, then allow it to dry completely.
- **OPTIONAL:** Once dry you can paint over the entire container with a layer or two of the glitter glaze to add some sparkle!
