

Take & Make Chalk Board!

Materials Provided:

- Picture Frame
- Chalk Paint
- Paint Brush
- Twine
- Chalk Marker

Additional Materials Needed:

- Hot Glue Gun (Optional)

Directions:

- Apply the chalk paint to the frame:
 - It took 3 coats before I was satisfied with how the frame looked. Allow the paint to dry at least 2 hours in between coats.
 - Be sure to paint over the upper edge to get a straight, clean look.
 - If you wish to hang your frame, you will also want to paint the bottom since the picture frame will technically be hung upside down.
- Once the painting is complete, you can leave your frame as is, or use a hot glue gun to attach the twine to the back of the frame, right at the curve of the base.
- Tie the 2 ends of the twine in a knot and hang!
