

Take & Make

Stained Glass Lanterns!

Materials Provided:

- Lantern
- Tissue Paper
- Mod Podge
- Paint Brush
- Black Sharpie
- Tea Light

Directions:

- Tear your tissue paper up into smaller pieces.
 - The pieces can be as big or as small as you want. You can use 1 or 2 colors or all the colors, it's completely up to you!
- Using the Mod Podge glue the tissue paper to the lantern.
 - Apply a thin layer of Mod Podge directly to the lantern and cover with tissue paper pieces.
 - As you go you may need to apply Mod Podge on top of the tissue paper if the pieces are overlapping at all.
 - When you have a decent size area covered in tissue paper apply a thin layer of Mod Podge on top to create a sealant.
 - Continue this process until you are satisfied with your lantern, then allow it to dry completely.
- **OPTIONAL:** Once your lantern is dry you can outline your tissue paper pieces with a black sharpie. This gives the pattern a more defined look, but is not necessary.
