CITIZEN COMMENTS: ► DPW Director Brutus Cantoreggi stated that they had to close the bridge at the end of Elm Street going into Medway; it is a MassDOT requirement. He said it is a really old stone bridge and because of the volume of the water going under it, they monitor it. He said the dive team is going to check it out in a few weeks, and it will probably be reopened. He said it is a very well-made bridge. ► Ms. Maureen Sullivan, resident at 871 King Street, said she has an easement onto Washington Street and is the owner of 553 King Street which is two lots at the corner of King Street and Washington Street. She said she was at the Town Council meeting the Wednesday before the election and was serious at the meeting. She said this Financial Way is still and will always be for the time that she owns the property at 553 King Street, an absolutely no go to take down the Digital building and put in up to 400 more trucks per day. She asked if this is a serious thing and if this Town really thinks that these roads can handle that. She said that her driveway at 871 King Street has completely sunken in. She said she built that home 27 years ago. She discussed how when the Jefferson Remington School was being built, the Town tried to widen the street and build sidewalks. She noted the house at 861 Washington Street and said the previous owners had such a sinkhole. She discussed her cement driveway has cracked and has given flat tires as it is so sharp. She noted that homes in the area have had cracked septic systems. She said the road is being destroyed and cannot handle the 200 to 300 trucks per day and now they are adding about 400 trucks per day. She said the trucks cannot fit around the corner as it is. She said nothing is going to widen that street. She said the trucks hit the utility pole and the sidewalks all the time. She said it is an absolute mess. She explained her driveway at 553 King Street. She discussed that she was also a caretaker for a resident, and it is a danger to get the person out of their driveway. She said a restaurant on the other side is what it is. She discussed the steepness of the driveway. ► Chair Mercer stated that Ms. Sullivan's three minutes are up and requested she finish her statement. ► Ms. Sullivan said she has three residences, so she gets more minutes. ► Chair Mercer said no she does not. ► Ms. Sullivan said the day of the meeting Planning Board Chair Greg Rondeau got a call which said shut her down, and she was shut down, and Planner Amy Love who ran the meeting was confused why you are putting traffic off. Ms. Sullivan said she was pushed aside and was not heard. She said she came to the Town Council and said it

was a no go, and no one has talked about the building coming down and the health issues with that. She asked what are we supposed to breathe in, just fumes from 600 trucks per day. ► Chair Mercer said Ms. Sullivan has gone five minutes, and he had to shut her down. Ms. Sullivan said she would be back at the next meeting.

- a. *Resolution 23-71: Town Council Approval of County ARPA Funds. (Motion to Approve Resolution 23-71 - Majority Vote).* ► Councilor Jones read the resolution. ► **MOTION to Approve** Resolution 23-71: Town Council Approval of County ARPA Funds by **Dellorco. SECOND** by **Hamblen. Discussion:** ► Mr. Hellen referenced his memo to the Town Council dated December 15, 2023, which is provided in the meeting packet; he stated the amounts requested are listed in his memo. He stated the funds need to be allocated before the end of this year. He stated the money can still be spent over the next three years. He noted that approximately one-third of all calls received by the Police Department for services are mental health related. He stated that they are trying to take advantage of the federal stimulus money over the next three years to connect people to services. He said that he hopes this will work out really well. He noted the half million dollars for sewer improvements. He said they have not spent any ARPA money yet in the last couple of years on sewer, so this will at least take some of the capital requests so that the rate payers do not have to fund these projects. He

noted the money to go to the Franklin Food Pantry, SAFE Coalition, and YMCA. He said all of the organizations are seeing a rise in the demand for services. He said hopefully these monies can help to support these organizations. He explained that this is it; the federal money is gone after this. He said there was a lot of work behind the scene with the county to make sure these would be approved. He thanked Ms. Frigulietti for her work and taking this off his plate. ► Town Council members asked questions, made comments, and thanked the organizations for their efforts toward helping the community. ► In response to a question, Mr. Hellen reviewed the restrictions of what the money could be used for. He said most of these are obvious. The county money is highly restricted regarding the ARPA money. He said they needed to work with the county to make sure it would be approved by the federal government. He said public health is an allowable use under the county funds. He said water and sewer is an allowable use. He said broadband is an allowable use. He noted that they benefitted in the CARES Act because there were no restrictions at that time the way the law was written. He stated that he is not aware of other towns that have allocated this much money toward public health, particularly mental health. ► Councilor Frongillo stated that he wanted to highlight a cool opportunity he had with the migrants that have come to town. He said he thinks people expected a whole bunch worse and a lot of communities have. He said and, if you are wondering why, it is kind of been quiet and things have been pretty smooth, it is due very much in a large part to a whole bunch of work from a whole bunch of volunteers. He said he had the pleasure of helping to sort through donations and just seeing, he knew of it, but to see it in person the number of donations, the number of volunteers who have stepped up, and how the Interfaith Coalition and SAFE Coalition have gone in systematically and met with everyone and every migrant family in the hotel and learned exactly what their needs are for clothing and food and are doing individual bags to meet the needs of the migrants. He said it was a really touching thing to see. ► In response to a question, Mr. Hellen explained ARPA Direct does not need county approval and we go through the regular process. He stated that the hotel/motel money the Town lost during the pandemic that we normally would have recouped are going toward rebuilding Baron Road which everyone is aware of. He said they have not allocated any funds to the high school bleachers. He said he is well aware of how much the visitor bleachers need to get fixed and how much all the Town Councilors and administration hear about it. ► Councilor Cormier-Leger asked Scott Martin from the YMCA to help understand the process on how the 400 teens will receive the scholarships from the \$100,000 for the YMCA, and if the money is going into a restricted fund or an annual fund. ► Scott Martin said what they are going to do is help recruit. He said they are going to expand the reach of how many teens belong as members. He said they will use social media and other communication methods to let teens know in town that this is available to them. He said one of the strategies is that if we can get them to become a member of the Y, we can engage them in programming and that is going to help with their physical fitness and well-being and anxiety issues. He discussed what some of the kids will be into and where they will fit. He said the money is going into a restricted fund for this specific program only for teens in Franklin only between the ages of 13 to 17. ► Councilor Chandler said he thinks the teenagers got lost in the shuffle more than anybody during this whole pandemic; he is happy they can give some money for that and use it for mental health. ► Chair Mercer thanked the entire staff for all the work that went in to making these difficult decisions that needed to be made and that they fell into the criteria given that needed to be followed. ► **VOTE: Yes-9, No-0, Absent-0.**

- b. *Bylaw Amendment 23-902: A Bylaw to Amend the Code of the Town of Franklin by Inserting Chapter 147, Snow and Ice, Removal Of - Second Reading (Motion to Approve Bylaw Amendment 23-902 - Majority Roll Call Vote).*** ► **MOTION to Waive the reading by Hamblen. SECOND by Dellorco. No discussion.** ► **VOTE: Yes-9, No-0, Absent-0.** ► **MOTION to Approve Bylaw Amendment 23-902: A Bylaw to Amend the Code of the Town of Franklin by Inserting Chapter 147, Snow and Ice, Removal Of by Dellorco. He said the mattress disposal fee is getting increased for the reasons that Mr. Cantoreggi stated at the last meeting. He said the Town's rate is \$65 which is a pretty good price. ► Councilor Cormier-Leger asked if there has been any feedback from residents since this was discussed at the last meeting. ► Mr. Hellen said he has not received any calls/emails from anyone opposing this. ► Councilor Jones asked if there has been a significant rise in people leaving items on the sides of the roads and asked how are we going to educate these people. ► Mr. Cantoreggi said yes. He said he does not think it is about education. He said the people know what they are doing when they throw it on the side of the road. He said the people doing it is a constant thing; they are not nice people. ► Councilor Dellorco noted that it may not even be Franklin residents doing this; they may be from out of town. ► Mr. Max Morrongiello, 127 Central Park Terrace, stated that he rises in support of the proposal, but he cannot rest easy knowing how much the fee will disproportionately affect low-income Franklinites. He said for residents like himself who are on SSI disability, the \$65 fee is equivalent to almost an entire two days' worth of income. He said Franklin's bylaws offer a solution to help folks with low income and it is called the Community Assistance Program. He reviewed the discounts. He said he urges the Town to expand the program to provide discounts for mattress recycling and more of the Town's numerous fees. He said it keeps him up at night knowing that low-income people in Franklin are struggling. ► **ROLL CALL VOTE: Chandler-YES; Cormier-Leger-YES; Dellorco-YES; Frongillo-YES; Hamblen-YES; Jones-YES; Mercer-YES; Pellegrini-YES; Sheridan-YES.** ► **VOTE: Yes-9, No-0, Absent-0.**

He said he expects a couple of more months for the appraisal to be done. He discussed the expression of interest process that they are putting together. He said people do call about Davis-Thayer regarding what is going on. ► Councilor Cormier-Leger said he wanted to urge the committee to approve this because as somebody who sits on the subcommittee, they really are at a standstill as they wait for the expression of interest to be crafted. He said he asks everyone to give them a little more patience with the process. ► Chair Mercer explained the discussions they had when they put this committee together. He said they need to do this right, and this is the right move. ► **VOTE: Yes-9, No-0, Absent-0.**

Cities and towns receive funds from the Commonwealth through a state assessment on transportation network companies, such as Uber and Lyft, operating in the Commonwealth. Cities and Towns must reserve and appropriate these funds to address the impact of those companies on roads and bridges. The Department of Revenue has recently altered its guidance on how these funds must be appropriated and we are complying with this new regulation. ► **VOTE: Yes-9, No-0, Absent-0.**
